U.S. Wars

—A Timeline of Conflicts

By Michelle Miller

King Philip's War 1675-1676	Philip (Metacomb), son of Chief Massasoit, in what is also called the First Indian War, resisted expansion coming from original Puritan settlements in Massachusetts when earlier relationships deteriorated. Other Indians allied with colonists.
Colonial Wars (New World colonies included in power struggles of "mother countries" in Old World)	
King William's War 1689-1697	Again, England and France vied in Europe, then in the colonies; Indians aligned on both sides.
King George's War 1740-1748	England and Spain/France vied in Europe and colonies; Indians aligned on both sides.
Queen Anne's War 1702-1713	England and France's war in Europe spread to colonies; the French (and Indian allies) in Canada and Ohio Valley fought Americans (and Indian allies) on English-backed colonies.
French & Indian War 1754-1763	English-American colonists vs. the surrounding French and their Indian allies. Conflict spread to Europe in 1756, where it was called the Seven Years' War.
American Revolution/War of Independence 1775-1783	Growing from good values in the Pilgrims, Puritans, and other early settlers (who realized the meaning of God's law), and with unexpected opportunities to self-govern, the American worldview increasingly differed. When the English (British) government attempted unilateral power, the American colonists sought independence, with the official "birthday" being July 4, 1776. The war closed with the amazing win at the Battle of Yorktown in 1781, but the final peace treaty was not gradually signed by the Brits until 1783.
War of 1812 1812-1815	Known as the "Second War of American Independence," naval struggles between the U.S. and Britain, as well as frontier frictions (Britain still held land around American territory), including the Battle of Tippecanoe between Tecumseh's 1811 Indian alliance and William Henry Harrison, led to war. Britain hoped to renew its control over the young, weak American nation... but it didn't turn out that way! Britain actually agreed to stop fighting before the final Battle of New Orleans in January, 1815, but word had not yet reached the States.
Mexican War 1846-1848	This involved not only Texas, and its Alamo, but also California and the Southwest, eventually bringing those areas out of the Spanish-Mexican control and into American statehood.
Civil War 1861-1865	Northern and southern American states went to war... with each other! The issues were several, including sectional differences and slavery. There is still disagreement about the war, its causes, and its continuing effects. In the end, the Union was maintained and our history goes on.
